Allowable Subject Matter

1. Claims 1-9 and 12-18 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record fails to sufficiently describe or suggest a vehicle security system for a vehicle comprising a monitoring device for sensing the presence of a body with a vehicle, a transmitter, and a remote vehicle interface device including a transceiver. The remote vehicle interface device activates a reset operation and the transceiver broadcasts a reset signal to stop the transmitter from broadcasting an intrusion signal, and the monitoring device re-determines if the sensors sense the presence of a body within the vehicle in response to the reset signal. These along with further limitations set forth by the claims, render the application allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
